

# ESC CONGRESS 2019

31 August - 04 September 2019, Paris - France

## Session Details

Cardiomyopathies: genetic causes and precision medicine

|            |               |                               |                          |                    |
|------------|---------------|-------------------------------|--------------------------|--------------------|
| Mon 02 Sep | 11:00 - 12:30 | Myocardial Disease - Clinical | Symposium, Joint Session | Zagreb - Village 6 |
|------------|---------------|-------------------------------|--------------------------|--------------------|

Chairpersons: Issei KOMURO (Tokyo, Japan), Eloisa ARBUSTINI (Pavia, Italy)

Subtitle: Joint with the Japanese Circulation Society

## List of Presentations

| Time  | FP Nr | Title                                                                         | Speakers                                   |
|-------|-------|-------------------------------------------------------------------------------|--------------------------------------------|
| 11:00 | 3275  | Genetic architecture of cardiomyopathy.                                       | Nomura SEITARO (Tokyo, Japan)              |
| 11:22 | 3276  | Impact of genetics on clinical outcomes of cardiomyopathies                   | Benjamin MEDER (Heidelberg, Germany)       |
| 11:45 | 3277  | Practice and clinical application of whole exome sequencing in cardiomyopathy | Yoshihiro ASANO (Suita, Osaka, Japan)      |
| 12:07 | 3278  | Gene-guided therapy of cardiomyopathies.                                      | Yigal PINTO (Amsterdam, Netherlands (The)) |
